

Updating Hospital Status in EMResource

Note: all hospitals are required to update their daily status in **EMResource** between 6:00 am. – 8:00 a.m.

1. Click on the **View** tab.

2. Select **Region Default (my default)**.

3. Click on the **keys** to the left of the name of your hospital. (Note: keys show you which hospitals you have access to change)

4. Select the **Status type** that you want to update.

NCTTRAC Acute Care [Select All](#) | [Clear All](#) | [Show](#)

Select the statuses to update (unchecked ones will not be changed):

- ☐ **Saturation:** Saturation Level: Normal (Green); Busy (Yellow); Overcrowded (Orange); Severe (Red); and Disaster (Black). DO NOT ADD COMMENTS.
- ☐ **EDAH (%):** Number of ED beds holding admitted patients as a percentage of the total number of ED Beds. DO NOT ADD COMMENTS.
- ☐ **Trauma:** Must be a DSHS trauma designated facility, or it will show "N/A". DO NOT ADD COMMENTS.
- ☐ **Stroke:** Must be a DSHS designated stroke facility, or it will show "N/A". DO NOT ADD COMMENTS.
- ☐ **Cardiac:** Must be a DSHS designated cardiac facility, or it will show "N/A". DO NOT ADD COMMENTS.
- ☐ **ENT:** Show "N/A" if you have no Ear/Nose/Throat capability at all; show "No" if you have it but no one is taking call at that time OR if you are saturated. DO NOT ADD COMMENTS.
- ☐ **NeuroSurg:** Show "N/A" if you have no neurosurgical capability at all; show "No" if you have it but no one is taking call at that time OR if you are saturated. DO NOT ADD COMMENTS.
- ☐ **OBGYN:** Show "N/A" if you have no OB/Gyn capability at all; show "No" if you have it but no one is taking call at that time OR if you are saturated. DO NOT ADD COMMENTS.
- ☐ **Ophtho:** Show "N/A" if you have no ophthalmologic capability at all; show "No" if you have it but no one is taking call at that time OR if you are saturated. DO NOT ADD COMMENTS.
- ☐ **Ortho:** Show "N/A" if you have no orthopaedic capability at all; show "No" if you have it but no one is taking call at that time OR if you are saturated. DO NOT ADD COMMENTS.
- ☐ **ED - Psychiatric:** Emergency Psychiatric Capability. DO NOT ADD COMMENTS.

[Show All Statuses](#)

[Save](#) [Cancel](#)

- a) **Open/closed/Advisory Level:** Open is the default status and should be used unless your saturation is **“Overcrowded,” “Severe,”** or **“Disaster”** in which case you would use **“Advisory.”** **“Closed”** is ONLY used if you have a facility emergency (such as a fire, power outage, etc.).

☒ **Open/Closed/Advisory:** This is a courtesy notice for EMS. There is no divert for Hospitals in a disaster situation.

☐ --

☒ **Advisory**

☐ **Closed**

☐ **Open**

Comment:

- b) **Saturation Level:** **“Normal,” “Busy,”** and **“Overcrowded”** are a way for the hospitals to manage internal surge and a message to EMS as to what to expect from that hospital. In an **“Overcrowded”** facility, EMS non-critical patients can expect delays after the screening exam. With a **“Severe”** facility, EMS should only take patients when a delay to the next closest facility could be detrimental to the patient. With a facility showing **“Disaster,”** EMS should avoid taking patients unless there is a clear threat to the life of the patient by passing that facility.

☒ **Saturation:** Saturation Level: Normal (Green); Busy (Yellow); Overcrowded (Orange); Severe (Red); and Disaster (Black). DO NOT ADD COMMENTS.

Questions?

- c) **EDAH Level:** Emergency Department Admitted Holds (EDAH) is the percentage of ED beds occupied by admitted patients waiting for beds.

☒ **EDAH (%)**: Number of ED beds holding admitted patients as a percentage of the total number of ED Beds. DO NOT ADD COMMENTS.

50

Comment:

- d) **Trauma Level:** If you are not a DSHS designated trauma facility, your status should be a "--"; "No" is if you are designated and not accepting trauma patients at that time.

☒ **Trauma**: Must be a DSHS trauma designated facility, or it will show "N/A". DO NOT ADD COMMENTS.

☐ --

☐ No
